The screenshot displays the Lumino software interface, featuring a 3D scene editor and a timeline-based composition interface.

3D Scene Editor: The top half shows a 3D perspective view of a scene with glowing orange and red particles forming complex, organic shapes against a dark background.

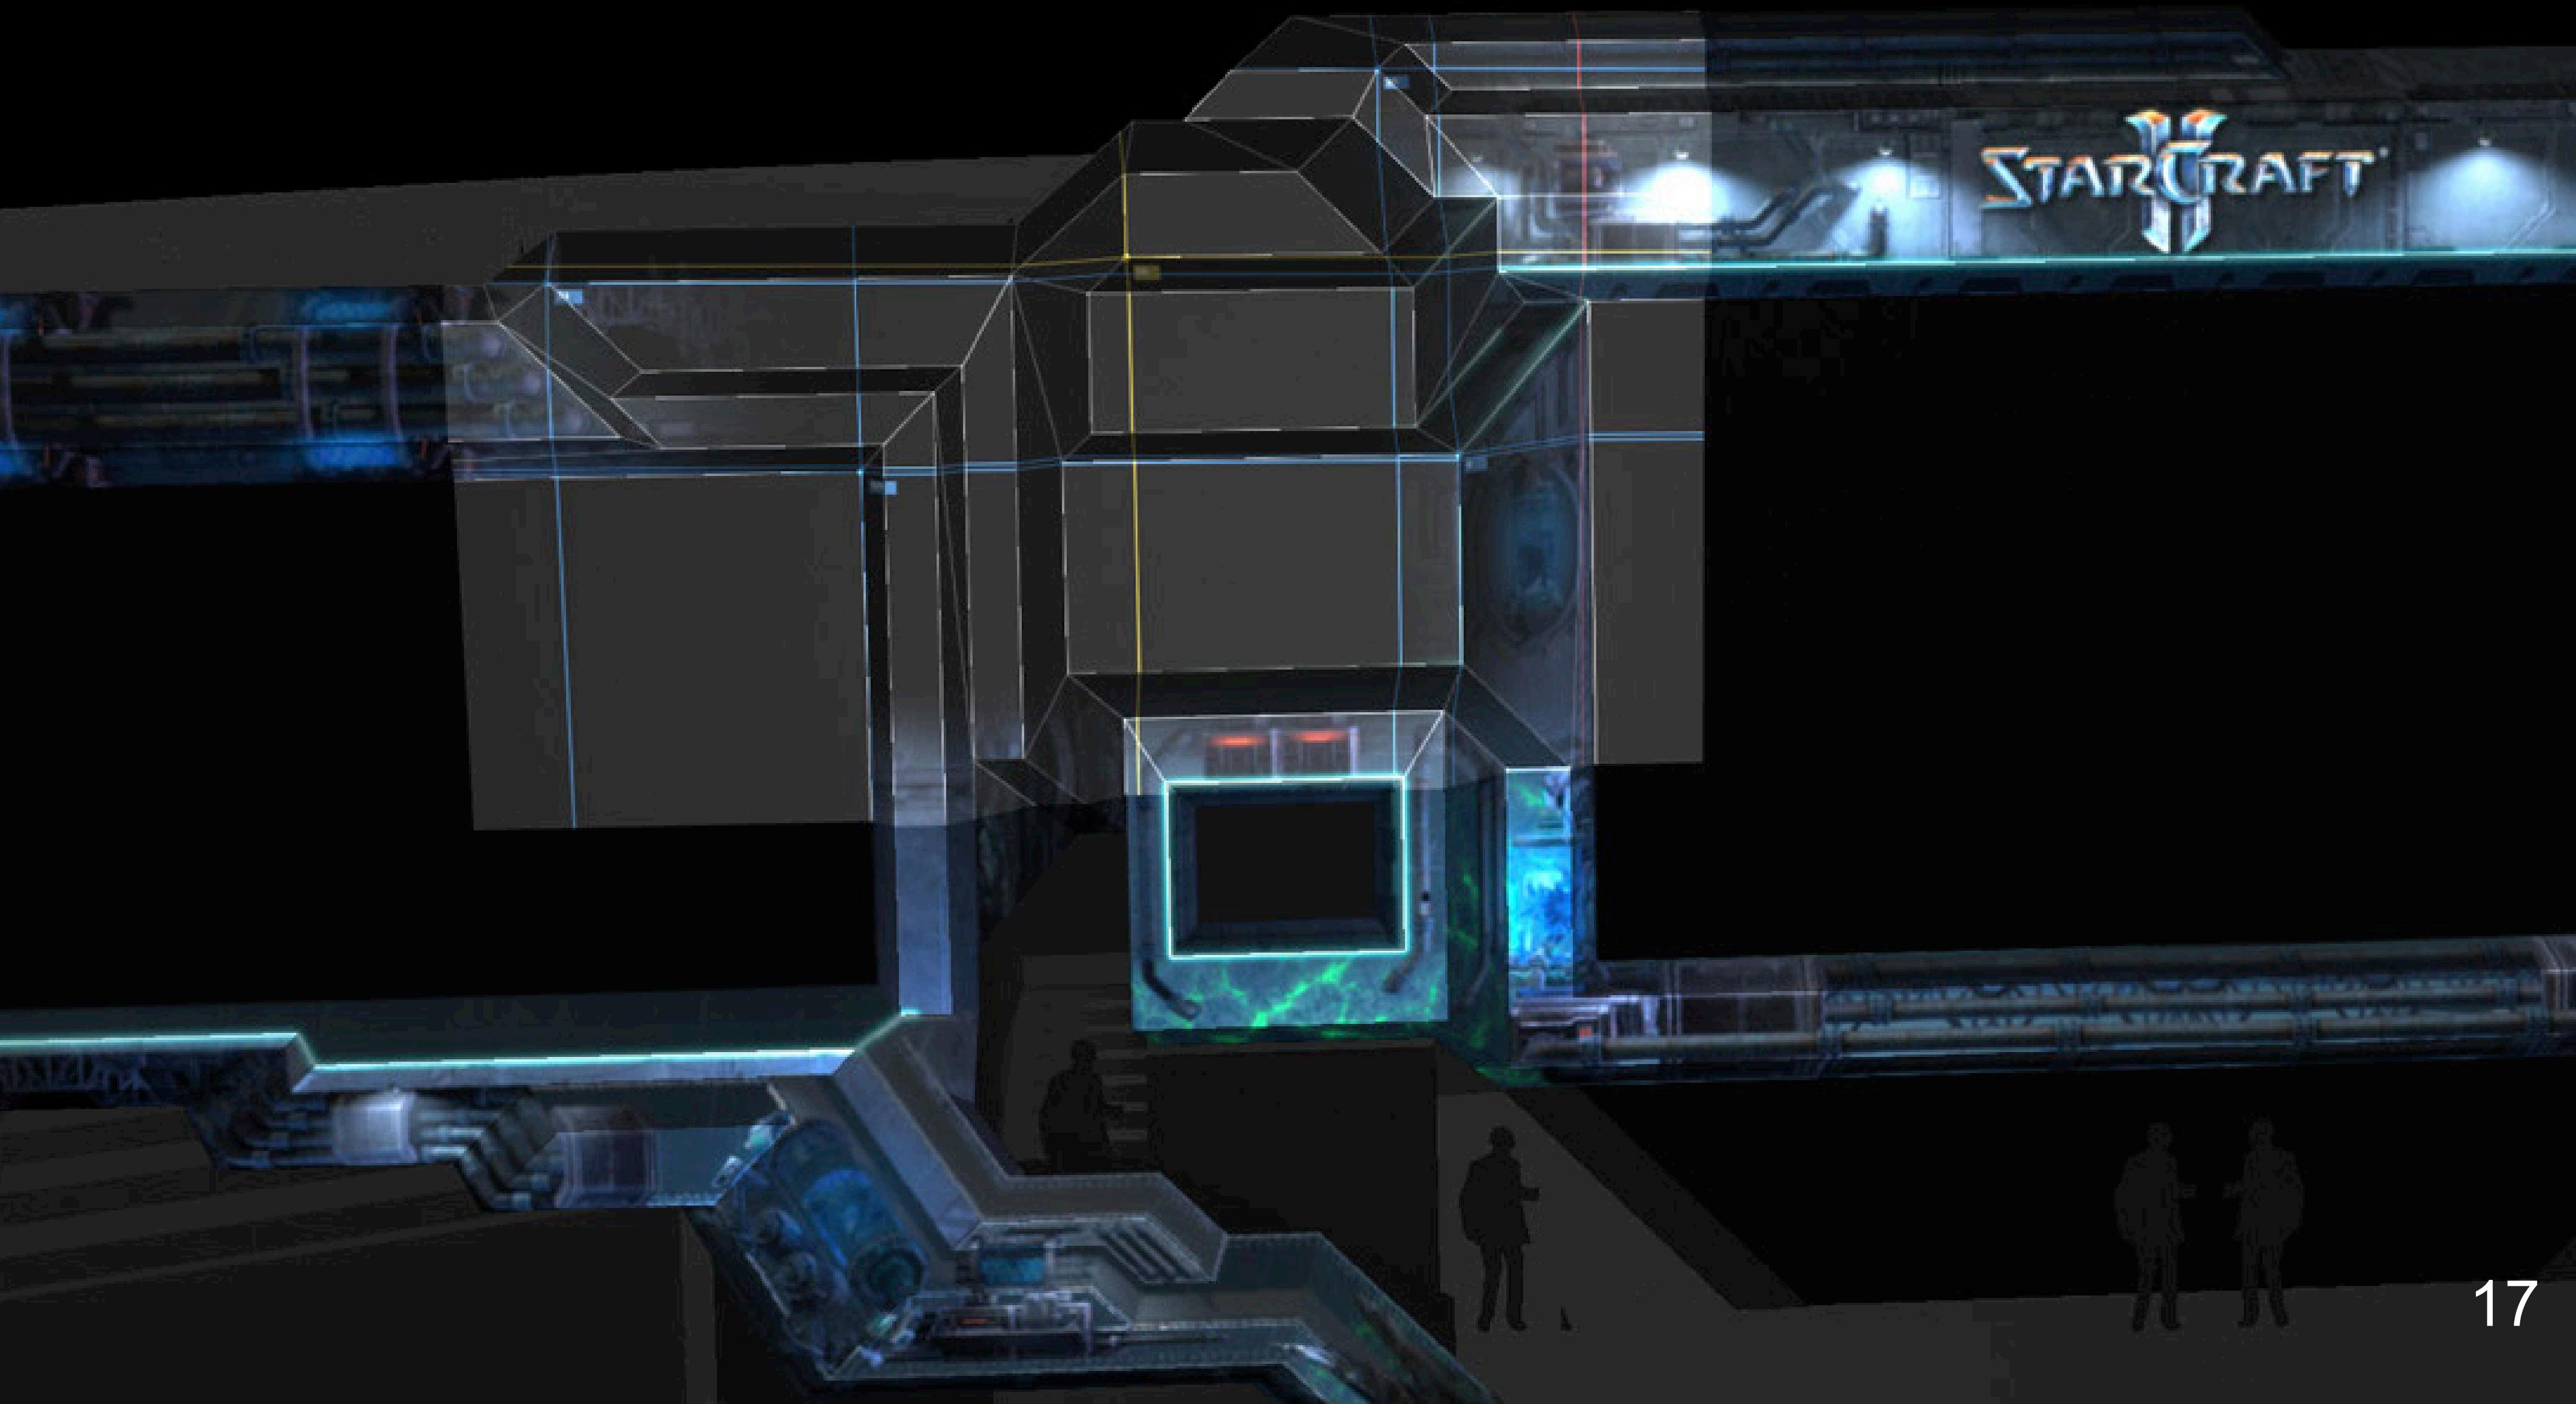

Timeline and Controls: The bottom half contains several panels:

- Bank Selection:** A grid of buttons for selecting different scene components (e.g., Bank1, Bank2, Bank3, etc.).
- Effects and Parameters:** A large panel containing numerous sliders and dropdown menus for adjusting parameters like Levels, Feedback, and Strobe.
- Clip Lanes:** A timeline at the bottom with 16 lanes, each labeled with a clip name (e.g., Clip 1, Clip 2, Clip 3, Clip 4, Clip 5, Aux 1, Aux 2, Aux 3, Aux 4, Aux 5) and corresponding controls for Opacity, Volume, and Master.
- Inputs:** A section labeled "Inputs" with categories like Audio, Video In, Particles, SacredGeo, Curves, and Spherical.
